110	THUMPER MAXI PRO (Professional Percussion Massager) The Maxi Pro was originally designed for Chiropractors to use on patients for soft tissue work and to warm up muscles prior to adjustment. Today it is often used by physiotherapists, massage therapists and athletic trainers for treatment of large muscle groups. It is truly a professional modality, so it is not recommended for home use or self-use.		63,500
111	THUMPER MINI PRO (Deep Tissue Electric Massager) The Mini Pro is designed for use in professional health care offices as an all-around robust and durable massager. It delivers a full strength percussive massage that penetrates deep through all fascial layers. It's ideal for warming up muscles, increasing blood flow to the area being treated and releasing muscle tension.		36,000
112	THUMPER SPORT (Hand Held Massager) The Thumper® Sport is the massager of choice for home users. If your shoulders are stiff after your initial round of golf at the beginning of the season, if your legs are burning from a bike ride with too much vertical climb, or if you simply spent too much time on your feet at the sales counter, the Thumper® Sport provides all the soothing your muscles need, along with all the health benefits associated with deep tissue massage.		25,500

113	Weighted Blanket Size:36x48, Weight: 5lbs,gray color Astra Med WB-01 is a premium-grade weighted blanket that helps relax your body by simulating the feeling of being held or hugged, making you fall asleep faster and sleep better throughout the night. Eases Insomnia, Helps with Sensory Processing Disorder, Reduces Anxiety, Improves Focus for ADHD, Eases Symptoms of Restless Leg Syndrome, Helps Fibromyalgia Pain, Improves Sleep Quality, Boost Mood, Promotes calm.		5500
114	Weighted Blanket Size: 41x60, Weight: 10lbs,gray color		6800
115	Body Sock – Small Size:68.5*86.5cm The body sock helps promote body awareness and creative movement while developing balance and coordination skills. Each pillowcase-like sack is constructed of four-way lycra with a loop-closed entrance and velcro fasteners. Because the material is see-through, kids can see the shapes they create and once inside find themselves in a private domain that begs for kinesthetic exploration. The body sock is ideal for individuals with Autism and Sensory Processing Disorder who crave the "hug" like feeling provided by the body sock.		3750
116	Body Sock – Large Size:71*142cm		4900
